PRESENTS

PARTNER

BIOBUZZ 2026 - 27 | SPONSORSHIP & MARKETING PACKET

We are Action Robotix, a robotics team made up of 15 students in the St. Louis area. Our group participates in the **FIRST Tech Challenge (FTC)**, a competition run by FIRST where teams create and operate robots designed to complete tasks. This is our third year partaking in FTC, and our team has been in other FIRST leagues in the past. These programs and our devoted coaches and mentors have allowed us to learn vital skills in the STEM (Science, Technology, Engineering, Math) field such as teaching, outreach, cooperation, and leadership. This year, we plan to use these skills to navigate the FTC season and qualify for the World Championship.

However, our team doesn't just want to compete. We want to **inspire and support the community** as well. By demonstrating robotics at local fairs and events, helping out FIRST teams, and providing lessons and resources, we will allow others to reach their maximum potential in and out of competitions. Our team believes that these efforts will benefit our region and result in more people showing interest in STEM activities and careers.

What is **FIRST**?

FIRST (For Inspiration and Recognition of Science and Technology) is a nonprofit organization that offers robotics programs for ages 6 to 18. They make STEM learning and competitions accessible for young minds of any background.

How We **Operate**

We are entirely student-led. Members work across four divisions - design, build, programming, and outreach - with student leads managing projects, budgets, and goals, supported by a network of industry and university mentors.

WHAT A SEASON WITH US LOOKS LIKE

JUN – AUG

Summer camps, community outreach, and pre-season training

SEP – OCT

Game release, strategy, CAD, and first robot build

NOV – JAN

League meets, practice, and advanced robot builds

FEB – MAY

League tournament, state championships, invitationals, and worlds

"It's not what you do – it's what you are becoming."

- Dean Kamen, founder of FIRST

actionrobotix.com

ROBOT

- Designed using Autodesk software
- Used GoBilda and 3D parts
- Contained intricate intake and grabbing mechanisms for samples

OUTREACH

- 50+ local events introducing FIRST
- 10 teams started & mentored
- Presence in 37 countries worldwide
- Impacted 10k+ people

OUTCOME

- Inspire Award
- 2x Sustain Award
- Advanced to the Chicago Robotics Invitational
- One of the top teams in Missouri

What Our Community Work Looks Like

Summer robotics camp teaching FIRST and engineering fundamentals to local students.

Public demonstrations at science fairs, libraries, museums, and school events.

Robotics team mentorship in the St. Louis region and with international teams.

Free resources including guides and CAD shared with rookie teams worldwide.

THIS SEASON'S GOALS

- Increase the impact of robotics outreach to underserved communities
- Use custom robot parts, such as 3D-printed pieces and CNC metal plates, to improve efficiency on the field
- Connect with more local companies and organizations to provide more community outreach events
- Mentor other robotics teams across all 6 continents
- Win awards at the league tournament and state levels
- Reach world championships and possibly win awards there this season
- Hold consistent top-10 in the state for robot match rankings

Why Your **Support** Matters

ACTION ROBOTIX 25779

3

For the 2026–27 FTC season, we estimate that our team will need **\$8,500**. That isn't cheap, so we need your support.

ESTIMATED EXPENSES	AMOUNT
Outreach Supplies	\$1,000
New tools and parts	\$2,000
FTC and event registration	\$900
3D printing & CNC	\$1,500
Game set	\$500
Travel & food	\$2,000
Team apparel	\$600
Total	\$8,500.00

HOW YOUR SPONSORSHIP HELPS OUR COMMUNITY

- Able to participate in more local events to offer STEM opportunities
- Enables us to aid other robotics teams by offering them resources and advice
- Allows us to be able to demonstrate our team & robot at FIRST competitions

HOW WE GIVE BACK TO SPONSORS

- We represent sponsors at community events
- Our sponsors' logos are placed on team robots, clothing, and resources
- Our team helps our sponsors in their local efforts

Tax Deductable Donations

Sponsorship Tiers

ACTION ROBOTIX 25779

4

In order to compete in the FTC season, we accept donations. Below you can see the different tiers of donations with their provided benefits. We truly appreciate your consideration to fund this team and would be forever grateful if you chose to donate/sponsor us.

Tier 1: The Gear

\$1 – \$499.99

- Listed on website
- Sent updates on our progress
- Thank you notes from team
- Help with local efforts
- Name listed on our sponsor banner
- Season recap report at year end

Tier 2: The Wheel

\$500 – \$999.99

- All Tier 1 benefits, plus:
- Logo/name on shirt (small)
- Link on website
- Logo on our pit banner
- Thank-you post on social media
- Invitation to team demo days

Tier 3: The Wiring

\$1,000 – \$1,999.99

- All Tier 2 benefits, plus:
- Logo/name on shirt (medium)
- Logo on robot
- Shoutouts on social media
- Logo in outreach handouts and slides
- Robot demo at one company event
- Feature in our mid-season newsletter

Tier 4: The Hub

\$2,000.00 +

- All Tier 3 benefits, plus:
- Logo/name on shirt (large)
- Company logo at our pit
- Logo on marketing materials
- Title placement on our website and banner
- Logo on our competition robot in premium position
- Team appearance at a company or recruiting event
- Named recognition in award submissions and press

IN-KIND SUPPORT

Support does not have to be a check. Product and service donations count toward the same tiers at retail value - Polymaker donated filament for our 3D printing, and SendCutSend covered laser parts for our drivetrain. We also welcome machining or manufacturing services, software licenses, meeting or event space, and employee mentorship hours. We would also be willing to advertise any product.

Hunt Family
FOUNDATION

SendCutSend

actionrobotix.com

Send funds to the **St. Louis Student Robotics Association (SLSRA)** on our behalf. SLSRA is **501(c)(3) certified**, meaning your donation is tax-deductible. Please note **Action Robotix - Team 25779** with your gift.

Online (Credit / Debit / PayPal)

1. Choose your donation amount and method
2. In the instructions box, add your company name + our team name
3. Fill out payment information

Check (Mailed)

1. Pay out to SLSRA
2. Put memo as "Action Robotix Donation"
3. Fill out the rest with payment amount and details
4. Mail the check in an envelope to P.O. Box 145,
Grover, MO 63040
